Organic II Lecture
Spring 2003
Quiz #2
(10 points)

1. Predict the major organic products of the following reaction, and circle the thermodynamically favored product. (5 points, problem 15-9)

\[ \text{NBS, } h_v \]

2. Predict the major products of the reactions below if a reaction is expected. Indicate any relevant stereochemistry.

(Problem 15-30c, 3 points)

(Problem 15-20b, 2 points)
