Office: LH274
Telephone: 801-626–6692 (w)
Office hours: Tuesdays and Thursdays, 2:30-5:00 in LH274.
Other office hours are available by appointment via email.

Class Description:
This graduate course requires the student to read three books and discuss each book in turn with the instructor during individual appointments. The student is responsible for setting up individual appointments with the instructor during the course of the semester. There will be three separate appointments.

Campus Closure:
In the event of an extended campus closure, please look at your Weber State email in order for instructions on how we will continue the class via email and the online course system.

Grading Policies:
Grades will be determined on the basis of the instructor's evaluation of how well the student has absorbed the content of the directed readings and has been able to effectively communicate that knowledge.

Students with Disabilities:
Any student requiring accommodations or services due to a disability must contact Services for Students with Disabilities (SSD) in Room 181 of the Student Service Center on the Ogden campus. SSD can also arrange to provide materials (including this syllabus) in alternative formats if necessary.
Books:
You must read three books from the following list (you may not pick a book that you have already read):

- Bruce Schneier, *Click Here to Kill Everybody: Security and Survival in a Hyper-connected World* (2018).
- You may also choose any book related to information assurance or information security of your choice, *subject to the instructor’s approval*.
