

Assigned Problems from Textbook

Completed assignments for each chapter are to be submitted through CANVAS, as scheduled, typically a day or two following the completion of each chapter in lecture. Write neatly and legibly. Be sure to write your name on the first page and group all pages together as a single file. Submit high quality images that are easy to read! It is recommended that you keep your graded assignments in a notebook or folder for easy review, as this may help you recall your work and prepare for examinations.
